

Eitech secures contract for Centralen

Eitech has signed a contract with NCC Sverige AB regarding all technical installations during the project Centralen, a substantial part of the project Västlänken.

Eitech secures contract for Centralen

Eitech has signed a contract with NCC Sverige AB regarding all technical installations during the project Centralen, a substantial part of the project Västlänken. The project will be a collaboration between NCC, Trafikverket and several other contractors. The total value of this order is estimated at 570 million SEK.

"Today I want to congratulate Eitech, a part of VINCI Energies, for securing the project Centralen. This will strengthen our presence in the Gothenburg-region and it's a very exciting project."
 Åke Thimfors, CEO VINCI Energies Nordic
