Total turnover for the Omexom companies is over NOK 30 billion (2018).

On January 21, 2019, Infratek in Sweden, Norway and Finland and Eitech Engineering became Omexom.

Omexom has the knowledge and expertise in the entire value chain of energy distribution. Hydro power, wind power or solar energy, assembly, efficiency and maintenance of high voltage lines, power cables, transformer stations, converters, smart electricity grids, street lighting, charging stations for electric cars and electric buses or storage of energy.

Health, environment and safety have the highest priority in Omexom. Innovation and best practice are shared across business units, and adapted to local needs. This is consistent throughout Omexom's business, including special dedicated safety days and ongoing development of security and quality routines.
